

Do You Need Procurement Consultants for Mergers, Acquisitions and Divestitures?

ProcureAbility™ specializes in providing on-demand Procurement integration and transition teams for mergers, acquisitions, and divestitures. Most procurement organizations are not adequately staffed during M&A to dedicate a team of employees to deliver on promised savings and other benefits or to expedite standing-up a new organization during a divestiture.

ProcureAbility can help. Our resources provide expertise in strategic sourcing, contracting, category management, data analytics and project management, and are complimented by a suite of analytics and market intelligence products. Our solution provides ultimate flexibility to adjust support based on evolving needs.

Our model saves our clients an average of 30% over traditional consulting costs.

Procurement Integration for Mergers & Acquisitions:

- ✓ Pre-merger opportunity assessment
- ✓ Strategy creation and implementation
- ✓ Category planning
- ✓ Category re-sourcing – consolidate spend, increase competitive advantage, open new markets, reduce costs
- ✓ Integrate and streamline procurement and sourcing operations

Procurement Transition for Divestitures:

- ✓ Unwind contracts while maintaining leverage
- ✓ Provide category expertise to transition all corporate functions
- ✓ Manage supplier relationships and maintain continuity of supply
- ✓ Support ERP system transition
- ✓ Design new procurement organization, processes, and technology

“ ProcureAbility’s team was instrumental in providing us category expertise and contract management support in the areas of IT, HR Services, and Facilities to support reassigning and resourcing a large number of contracts to stand up our divested company. Their focused expertise in these categories provided us with necessary leverage and allowed us to meet critical dates. ”

– Chief Procurement Officer,
Global Technologies Company
